

Important Advice

The room climate ideally should be 18-20 °C (64-68 °F) at 50-60 % RH, this way excessive gaping (back drying) can be avoided.

Dust and loose dirt can be removed drily using a soft cloth, a suitable broom or vacuum cleaner. Do avoid scratches by removing the dirt regularly and gently as well as by using felt pads under the furniture or suitable chair castors.

Please take into account that when cleaning the hardwood floor with liquids the cleaning cloth should be not more than fog-damp. Too much water results in unnecessary swelling of the wood, and if you "water" your floor repeatedly it may get damaged.

How often the floor needs to be cleaned essentially depends on its use. The table below shall be a guideline:

Traffic exposure	Moderate	Medium	Heavy
Initial care	1 x	1 x	1 x
Routine cleaning, dry	every day or as needed	every day or as needed	every day
Routine cleaning, fog-damp	8-14 days	2-4 days	every day
Maintenance care	2-3 x p.a.	4-6 x p.a.	8-12 x p.a.
Basic cleaning	1 x p.a.	2 x p.a.	4 x p.a.

Depending on the actual use of the hardwood floor you will have to deviate from the intervals listed.

Product Overview

BRILLIANCE EVERCLEAR is available as glossy and matt. This water-based emulsion can be applied undiluted or diluted and is suitable for lacquered/coated floors.

BRILLIANCE AQUAOILCARE is a water-based oil-wax maintenance product meant for everyday use for oil-impregnated wooden surfaces. It is not self-ignitive, can be very easily applied and leads to an amazing matt wooden design where the care has a long-lasting effect.

BRILLIANCE AQUASATINPOLISH is a water-based care emulsion for impregnated/oiled surfaces. This care product can be applied undiluted and diluted. It builds a silky matt look which can be polished too.

BRILLIANCE NEUTRALCLEANER can be used diluted with water as a universal cleaning agent on all flooring. It eases removing the dirt from the hardwood flooring.

BRILLIANCE BIOSOAP is based on renewable raw materials. It is used diluted for routine and maintenance cleaning. This product slightly re-greases the floor.

BRILLIANCE CLEANER L94 is a basic cleaner that removes dirtied care films from lacquered hardwood floors. The existent care film will be partially dissolved and then absorbed by clear water, depending on how much dirt there is the BRILLIANCE CLEANER L94 is used undiluted or diluted.

BRILLIANCE OILCARE can be used after the basic cleaning or stronger load of single areas. Can be used for re-oiling. After drying, the re-oiled surface is polished.

BRILLIANCE SPRAYMOP COMFORTCLEAN is the ideal and ergonomic solution to the daily, regular floor cleaning and caring. The refillable tank and the integrated fine-spraying functionality allow for a very easy and fog-damp mopping of the floor, without the need to often bend down.

BRILLIANCE EVERCLEAR APPLICATOR is the classical tool for uniformly applying Everclear, a much-liked and proven solution.
